Alkalinel asked you to leave beacuse you talk shit about reborn.

You and half the other dumbasses said you can't use a no cd crack for renegade in reborn. I proved you all wrong ONCE YET AGAIN.

If I had a personal problem you would have been banned, FROM ALL UN servers. Which currently happen to be the most popular on gamespy.

lol...oh my god, TEFON is the most popular server since thier server is 20/20 for the most part on gsa not UN. Stop spreading lies.
