xC4pRoXmaybe these so called "alarms" were produced since I told spoony why I couldn't log into renegade. He told me to restart it a couple of times, and I must have restarted it at least 30 times within 1 minute?

Or you client was altered, which is why it set off that type of alarm. I reset several times in 1 minute and, yet, I'm still a part of the network. You're not. Wonder why....
