Subject: Renguard having too many problems.
Posted by Alkaline on Fri, 09 Apr 2004 21:05:20 GMT

Scrumfyda_shizi know that...but he makes it seem like he has to use it and he's going against the grain by denying the program.

That's better than being a mindless sheep...All your servers are belong to Cramson

Agreed. Which why I propose de-centralization from renguard network, and giving the control back to servers owners.
