Quote:Anyway keep crying since the only one on your server is 1 of your dumb admins, thanks for putting up your admin list, you have all been banned

How can you say that? I took the server offline and nobody is playing. Also, take note, in the morning, my server was full, yet yours was empty. Everyone who joined said they hadn't enjoyed a game that good in a long time. When I asked why more than one said "no asshole admins". The thing you lack on your servers is a friendly community. Simply because you insist on gloating your ego.

We understand perfectly. If you feel the need to post private conversations, I can do the same. Don't be a hypocrite.

Quote:Nice ripp-off of renwarz theme and portal on your retarded little site also. I'm sure you have some crap to say about them as well.

That theme comes with e107, the CMS Serenity and I are using. I have nothing bad to say about Renwarz, I'm quite good friends with Milfy (Serenity).

Quote:Start a thread asking for trouble, then put a disclaimer.  
I started a thread to announce my new server. Just as you did.
