---

is this disabled? I fire up rene, go into multi->wol->manage account then bam! "page fail to load" error or some shiznit like that. Are we no longer able to create an account? if theres an alternate way to do so let me know.

thx

[edit] ps. since i know that it is the renegade web-browser crashing (just like when u click on "news". So maybe if someone could tell me the actual url's to use on internet explorer? or point me to a site that has all the wol urls. Anything to help.
