[@Blazer]: yeah thats like giving someone a bulletproof vest, with removeable plates...why would you wear it without the plates in it
[@Blazer]: and someone WILL wear it, and get shot and go OMG THE PEOPLE WHO MADE THIS VEST SUCK
[@Blazer]: lol
[@Blazer]: (and then they die)

Also, I'm hearing that the RenEvo SSC isn't sending results.txt files to us... so any server running this SSC won't be able to participate in the RenGuard ladder in development... that's not good either.
