I can't read half this shit...It just makes me so angry. These UN fucktards come in here acting like they know every God damn thing about how we are. Because we defend the owner of these forums, we must be kissing her ass. And because we don't like dickheads like Alkaline, we have 3 inch penises.

NEWS FLASH: We don't like you because you are morons and defend your buddies when you know they are WRONG. If xptek or anyone else I chat with does something wrong I don't go and defend them to the point of where I have to flame every last one who disagrees with him.

I am tired of seeing your shit and so is everyone else, please Crimson, for you and the rest of us, BAN THE FUCK OUT OF THEM!!!!!!!!!!

They have no place here, we try to be civil and it becomes impossible in a thread where these morons post. I actually thought God Of Death was somewhat civil until I read his "OMG I LIKE GUYS' ASSES AND I LICK THEM EVERY DAY AFTER I GET DONE HUMMING SOMEONE ELSE!!!!!!!!!!" post. UN are nothing but a bunch of maggot festering, camel humping, absolutely ridiculous assholes.

Edit: Scrumfy, I said make fun of their "short comings," hence small penis size. I didn't say calling someone a homosexual. You are becoming more and more like Alkaline by the post. Maybe being in bondage with him is making your mind corrupt.
