You will probably want at least 1 GB of RAM for good performance, a ATi Radeon for graphics, and a good size HD, probably about 80 GB.

Sites:

<http://www.newegg.com>

<http://www.pcpartscollection.com/>

<http://www.pricewatch.com/> <---- damn. some of the best prices I've ever seen. (Never tried it out though, so I hope that it's legit.)

I'd build my own computer but I'm kinda broke...
