I announce my AIM screen name (AS IF IT WASN'T OBVIOUS ENOUGH) in the Mod Forum as being "Aircraftkiller," to the public, and not even 30 minutes later... Some loser decides to use AIM exploits to crash my client.

Is that all you're capable of since you can't win any arguments with me? Or are you a coward?

If you aren't, step forward and say who you are. I'd like to know why it is that you feel the need to use AIM exploits to knock me off.

Not like it wasn't that hard to set AIM to "Allow only users on my buddy list to contact me" again. This usually happens twice a year. Some assrammer goes "LOLLERSKATES LETS EXPLOIT HIM OFF AIM" and I get back on, putting back "only allow users on my buddy list."
