i am going to hate myself for even getting involved in this little convo, but i think that ds9 was clearly the best trek out there. Sure voyager was good, but it was too....i dunno....full of sh*t? Every episode was "voyager encounters human-looking aliens...conflict with human looking aliens...Janeway uses her words to solve the problem...everyone laughs in the end and everything ALWAYS works out."

That and they made a stupid ww2 era episode that made me want to puke. The German Wehrmacht, circa 1941 would wipe the FLOOR with those pussy trek commanders!

**You hated undiscovered country? Bad story line?

are you sure you saw that one with the whales????? You know, the WHALES???
