Happy Birthday, Dark.

BTW...my birthday is next Friday and I decided not to spring it on anyone because I expect LOTS of presents!

Here's my list:

250GB HDD

New graphics card

New sound card

1024MB RAM

New video card

2005 Chevrolet Corvette

Laptop with the same HDD and RAM

that's just for starters Afterall, I do like to be suprised. Please, nothing under \$100.

That WOULD be awesome if I could get all of that, oh well, a Happy Birthday will do on the 30th.
