ok my renegade folder is c:\westwood\renegade thats the installation folder in the renguards setup. I press NEXT and i get this error message: "c:\westwood\renegade . Renguard must be installed in the renegade folder!"

I tried the data folder, same error.

um wtf

windowx xp, 512 mem, 2.6 ghtz, 128 ati radeon 9600. 80 gb hd
