We need to get more users and server-owners running RenGuard.

I would like to see a target where 100% of Renegade FDS's run with RenGuard enabled.

So, everyone spread the word about RenGuiard to wherever you can.

Most importantly, anyone who is spouting out anti-RenGuard FUD, such as this thread here:

Must be stopped and/or countered with pro-renguard arguments.

On the other hand, if someone has legitimite anti-renguard statements, we (as in the dev team)
need to take them on board and do what we can to fix whatever it is they are compalining about.
