<http://www.renguard.com/faq.php>

I'm getting the message: "RenGuard is not installed correctly, re-install it"

This error message means that your copy of RenGuard is not called "game.exe". A proper installation of RenGuard involves RenGuard being called "game.exe", and Renegade's "game.exe" should be renamed to "game2.exe". The installer should take care of this for you. [/b]
