Our server is everything except empty with RenGuard on it.  
Almost the whole day there are at least 18 players on the server.  
And this server runs in RenGuard Pure mode!

Stop whining your servers are empty lol.  
If they are empty its because they play on an other server.  
Probably because you are not running your server in Pure-Mode, and as we all know:  
Skins/textures are gay because some of them offer an advantage.
