Put yourself a portfolio together of previous work, open up 3DS Max an just model around a bit, also open up Photoshop an make some stuff.

Bundle it all together an make a very nice organised an simple portfolio that you can link people to for previous work.

Make sure on your portfolio that you list your skills, previous work, how long you have had the skill and what you aim to do with your skills in the future.

You'll be surprised on how much it will help you get recognised.
