Its one of the popular theories. Any ways, this isent a war over which theory is better or whos wroung or right, becuase when you talk around the univeres theres no supportable evidence, and mostlikly when there is we will be way off. You don't have to talk to me like I'm an idiot. I even explained how the infinite loop univers worked, just i forgot the name of the therum/equation what ever, i gtg.
