John Shaft Jr.BlazerUmmm didn't we have a talk before about the matrix sig? As I explained I think those animated sig movies are cool, but not everyone wants to download over a megabyte of data everytime they read a thread with your post in it.

Ummmmm.... Blaze, did you check the website post. Well anyway, they are not over 1 meg no more. *Laughs evily* HAHAHAHAAAA

No they aren't over 1 meg. They are 828K. I shall quote again from the FAQ/Rules thread at <http://www.n00bstories.com/renforums/viewtopic.php?t=19>

Signature Image Size - Please keep them small as signature images should be. In other words it shouldnt be bigger than a few lines of text, or so wide that it stretches the forum page beyond its normal bounds. Just keep in mind that by definition a "signature" is a small signoff message. Anything larger than 3-4 lines of text stops becoming a sig and turns into "that big picture at the end of the post". Please also make sure that your signature image, if animated, is not over approximately 250K. This is to ensure that the modem users (yes, everyone doesn't have broadband) don't have any problems.

I'm not trying to be a dick here. Not everyone here is on a broadband connection and your sig is causing them problems. As I said I love the Matrix, and the mini movies are cool, but that does not allow me to give you any special privledges, especially since you are openly defying one of the very few rules we have in place here (and all of the rules are for the benefit of everyone).
