I hope someone comes to your house and beats the shit out of you tonight. I really do. I now see why you all spend hours and hours on the computer. You have no sense of right or wrong. No sense of how to get along with anyone. No respect for anyone.

Well you know what, just because you won't amount to anything in life... never get married, only have your little "online friends," don't ruin someone else's hard work.
