userTRANSLATION (courtesy of MaxPepper): Just a short question, why have I been banned by RenGuard? I don't think it's funny anymore! At first, RenGuard forces all Renegade players to infringe on the EULA [e.g. by modifying the game.exe without authorization by ea/westwood]. Now RenGuard prevents me from joining my own server because I am not approved for accessing RenGuard. THIS IS NOT THE WAY! Let me be very clear about it. if the ban is not lifted, I will take you to court.
