The June 1st initiative is working. We are breaking all kinds of records on every scale that I measure this weekend.

We are now ready to start managing community news. The MOTD you see when you launch RenGuard is not intended for just RenGuard news. Tournament announcements, community-related news, whatever we decide to go with and whatever people like.

We also plan to have this news available for syndication, so other sites can post our news any way they choose.

If you're the type who visits several different Renegade fansites and usually has a good idea of what's going on and where, this position just could be perfect for you.

If you're intested in applying, please reply to this thread and tell us why.
