Subject: Computer help

Posted by Nodbugger on Fri, 28 May 2004 00:08:52 GMT

My computer has gone fucking retarded.

When it goes to sleep mode it freezes.
When I run Norton it freezes on a random folder
When I run ad aware it freezes on a random folder
IE freezes for no reason at all
It runs extremely slow
This morning the windows XP load bar just kept loading, and it never ended
Not it starts up fine
