"The maps should go into core patch 1"

I'm a "56k" dialup user that usually connects @ 31.2kbps, and i believe you should put the maps as a required download to RenGuard users. These maps you suggest, in total will come to roughly 20MB, which to be honest, is no biggie for anyone (2 hours of downloading).

I've absolutely no problem with downloading 20MB every now and then for new maps, but i must insist that you make the download resumeable with plenty of mirrors.

Go for it, i wanna play some new maps with plenty of people alongside me!
