No, he doesn't have AIM set up so no one can talk to him unless you're on his buddy list, it's set up so that the chat only automatically starts for those on the buddy list, if you're not on it a "... wants to chat with you" dialog box pops up.

You apparently aren't trying to get into contact with Aircraftkiller, you can get with him on AIM, by PM, by e-mail, etc., but you don't.

Yes, we know which team member leaked it to him, I think it's pretty obvious who did it. He, when told that someone had leaked it out, admitted to giving it out to deadaim.
