Why would anyone try to fake a scandal of you having an internal beta. Give it up, we've already confirmed it with the person who gave it to you.

And the distinction the 'your mother' jokes being AFTER you released our beta is this: you no longer have any even remotely valid reason for your actions.

Personally, I'd just like to know why your story keeps changing. First you imply that you have the renalert submarine beta, and you even send me a picture. Then you say that no, you made the picture by photoshopping a screenshot of ACK's video (obviously untrue). Now you insist that you were framed, someone used your name, played multiplayer Lan, and took that picture. Why, then, was the picture in your possession? After all, you sent it to me, not the other way around.
