Here are a few interesting logs from AIM that I happened to save. I am programinbastad, and Deadaim00 is ATLjoker541 and he later uses insanelildil, since I blocked ATLjoker541. The logs speak for themselves. I highlighted a few key quotes.

programinbastad: you knew you weren't supposed to have the alpha yesterday
programinbastad: or whenver it was
programinbastad: and you didn't ask before downloading, you asked before playing in my server
ATLjoker541: well, i obviously didnt know i wasnt supose to have it
programinbastad: you should have
ATLjoker541: well im sorry
programinbastad: you don't seem sorry
programinbastad: you seem conniving
ATLjoker541: con whating?
programinbastad: conninving, plotting, insidious
ATLjoker541: i only know 1 of thoes words
ATLjoker541: lol
programinbastad: you want the alphas real bad, but you don't seem to want to make us any decent maps
ATLjoker541: thats not true
programinbastad: I trust you less than I trust most of our beta testers
ATLjoker541: i could give a damn about the alphas
programinbastad: no, you begged me for months
ATLjoker541: ill delete it right now
ATLjoker541: if you want
ATLjoker541: hell no i didnt
programinbastad: have you forgotten already?
ATLjoker541: i asked once
ATLjoker541: and you said no
programinbastad: you asked me liek every day for at least a month
ATLjoker541: because you couldnt trust me yet, and i agreed with you
ATLjoker541: no i did not
programinbastad: yes, you definitely did
ATLjoker541: i have all my aim convos saved
programinbastad: don't sit here and deny it
ATLjoker541: and i can prove i did not
programinbastad: go back and look for yourself
programinbastad: you asked dozens of times
programinbastad: and then you go and download this one, knowing you weren't supposed to
programinbastad: and you are still yet to produce an even mediocre map
programinbastad: but its gets worse, you're not useful as a beta tester either
ATLjoker541: lol, how is anyone not usefull as a beta tester?
programinbastad: you never played when I hosted, you never pointed out any errors that weren't already known
programinbastad: so far you've only come off as a n00b who wants to play our alphas

programinbastad: the least you could do is use the default LE instead of one for a competitor mod
ATLjoker541: why does it matter
programinbastad: because its annoying to have to use fucking RA to play a map that is for our mod
programinbastad: not that it is going in our mod, because, like I said, it is a piece of shit
ATLjoker541: ok, and im still not sure why its annoying
ATLjoker541: but i guess its your own personal preference
programinbastad: my preference is that you show your value and make somethnig we can use

programinbastad: I think the fact that is most disparaging in your case is that you have nothing to show for any respectably good map, even now 4 days after missing the ultimatum deadline that I set for you
programinbastad: which, if anything, solidifies the growing fear in my mind that you are a useless creten who exists solely to mooch internal alphas
ATLjoker541: jesus christ dude, let that alpha thing go
ATLjoker541: i dont care about it
ATLjoker541: infact, ill delete it right fucking now
ATLjoker541: if it will make you shut up
...
programinbastad: am I just supposed to forget?
ATLjoker541: all i needed to do
ATLjoker541: was ask someone
ATLjoker541: or hack it myself
ATLjoker541: and i would have gotten it
ATLjoker541: so dont say thats all i want
programinbastad: well then I wish you good luck in getting the next alpha
programinbastad: because you're fucking off the team
programinbastad: I don't want to ever hear from you again, got that?

This next segment was a day or two later. I was away, and Deadaim00 came on with a different name (one which I had not blocked), insanelildil. Here is what he had to say:

insanelildil: I didnt wanna fucking do this, but now i guess since you dont want people to see this alpha, its going to have to be leaked ALL OVER THE RENEGADE COMMUNITY
insanelildil: along with your first one
insanelildil: so, hmmmmm where to put it first
programinbastad: you said you were going to delete it
insanelildil: ya, well i would have, but you never told me to
programinbastad: the least you could do is follow through on your word for once in your life
insanelildil: i asked you
insanelildil: i will delete it if it will make you shut up
programinbastad: it will
insanelildil: and you didnt say anything about that
programinbastad: I was shut up
insanelildil: ya, by blocking me
insanelildil: i didnt want you to bloc kme
insanelildil: i told you that in the beginning

insanelildil: if i get kicked off the team for some reason
insanelildil: the most we could do is still talk
programinbastad: I don't want to talk to someone who threatens to hack our server for the mod, release it to the public, says I, a male, am having my period, etc
insanelildil: well, you were getting all pissy about it
insanelildil: and i wasnt doing anything
insanelildil: dont even use that against me
programinbastad: yeah, you'd already done your damage
insanelildil: cuz i know what your goign to say
programinbastad: even outside of you getting the alphas, you still haven't done jack fucking shit
insanelildil: told ya, i knew what you were going to say
programinbastad: and now you turn out to be some punk kid who thinks he can hack, and wants to release an internal alpha to the public
insanelildil: god damnit
insanelildil: i know i can hack
insanelildil: i have proved it before
insanelildil: and i prolly wont release it
programinbastad: hacking with some dumb program doesn't count as hacking
insanelildil: well, not proved it to you
insanelildil: but i have done it
insanelildil: there are other ways of hacking
insanelildil: thats just the way i choose
insanelildil: the program works, and thats what i will do
insanelildil: you still need alot of knowlage to do it
programinbastad: I will not be blackmailed into keeping you on this team
insanelildil: i dont want to be on the team
programinbastad: you can try to earn your trust back, or you can earn the scorn of the community by illegally releasing an internal alpha
insanelildil: and im not blackmailing you
programinbastad: then delete the fucking mod
insanelildil: fine
insanelildil: its gone
insanelildil: in the recycle bin
insanelildil: and im about to hit empty
programinbastad: hit empty
insanelildil: *hears sound of crunching papers*
insanelildil: can you please unblock me now?
insanelildil: i dont like this name
insanelildil: it was my first name ever
programinbastad: why should I unblock you
programinbastad: you just threatened to hack our site, release the mod to the public, and you have forever lost my faith and trust
insanelildil: ok, then why did you just say if i plan on earning my trust back?
programinbastad: I don't think you do, which is why I don't intend to unblock you
insanelildil: wait, you dont think i do what
programinbastad: intend to earn my trust
insanelildil: well i do, i guess i cant
insanelildil: so i guess, i just should not try, but it would make me happy

insanelildil: i never wanted to fight in the first place
insanelildil: your the one who did all the fighting
insanelildil: so now your ignoring me?
insanelildil: what the hell
insanelildil: talk to me damnit!

As you have read above, he promised me that he would delete the beta from his computer, as a means of ensuring that he would not leak it, which had been my suspicion for several days.

This next one was another few days later. We started talking about something else, and I said that yes, I kind of hated him. When I returned from being 'brb,' he said:

ATLjoker541: your gonna hate me even more later tonight
programinbastad: why is that
ATLjoker541: youll see
programinbastad: don't bullshit me
programinbastad: don't tug my chain on some powerplay bullshit
programinbastad: tell me what the fuck you're up to
ATLjoker541: nope
programinbastad: you said you deleted the mod
ATLjoker541: ya
ATLjoker541: and i did
programinbastad: both?
ATLjoker541: no
ATLjoker541: well
ATLjoker541: yes andn o
ATLjoker541: yes off of this computer
ATLjoker541: but not off the others
ATLjoker541: so i still have it
ATLjoker541: but tahts not what im up to
programinbastad: is that what you're doing, releasing our alpha?
ATLjoker541: no
programinbastad: what, then
ATLjoker541: i said youll see
programinbastad: well you can make yourself look like a disloyal fucktard if you want, I guess thats your choice
programinbastad: I already knew you were, but I did oyu the favor of not publicly announcing it

This was the night before Deadaim00 released the alpha. He announced that he had no intention of releasing the internal beta at the start of the conversation.

ATLjoker541: hi
programinbastad: hi
ATLjoker541: I officially decided not to do what i was going to do
ATLjoker541: ever

*he is referring to publicly leaking the beta, which he had threatened to do, but after cooling off he

temporarily changed his mind.

ATLjoker541: unless you piss me off alot
programinbastad: come on
ATLjoker541: but its gotta be like
ATLjoker541: killing my family
ATLjoker541: or something
I removed a few lines where I helped him with some LE questions he had.
ATLjoker541: well to tell you the truth, i was never going to do it anyway
ATLjoker541: becaus i thought about it
ATLjoker541: and i think if you did what i was going to do
ATLjoker541: to nme
ATLjoker541: I would personally come to your house and feed your family to my dogs
ATLjoker541: lol
ATLjoker541: well here it goes
ATLjoker541: I was going to leak the mod, ALL over the renegade forums, renstation forums, all
the big website forums, n00bstories, and more, but thats not all. I wal also going to hack into your
computer, and delete every file you ever made for the mod, delete the website and everything.
And just for fun, i was going to make almost every file on your computer a porn pic
ATLjoker541: wait im not done
ATLjoker541: dont respond yet
ATLjoker541: *the porn pictures idea was not my idea, im not perverted like that, it was my bros*
But after i was done with that, i was going to leak it some more, now i mind you, i dont have the
mod on this computer anymore, but i do have friends who have it, so i could jsut as easily gotten it
from them

*these were deadaim00's plans, which he claimed to have abandoned the night before he
released the beta. In the end he followed through on the first part - uploading the beta to his
server and linking to it in every forum he counld find.

ATLjoker541: but then i decided not to, because thats very mean
ATLjoker541: k you can respond now
programinbastad: you handed it out to friends?
ATLjoker541: no
ATLjoker541: i did not
ATLjoker541: i dont know where they got it
ATLjoker541: to tell you the truth
ATLjoker541: i will ask him

This was a little bit later that night. This time he is trying to blackmail me into not blocking him, and
not kicking him off the team. He points out what happened to reborn when it was leaked - it looked
bad and lost a lot of support.

ATLjoker541: i didnt need to join the team to get the alpha
ATLjoker541: i said
programinbastad: bottom line is that you are a dumbfuck, a stupid kid, and really annoying
ATLjoker541: well
ATLjoker541: if you see it that way

ATLjoker541: This mod is looking like it wants to meet other people, and im not necisarily sure if you want that now do you? You dont want to see what 2 years of bullshit work has done now do you? Im pretty sure you dont. Since the mod does kinda suck some major balls.
programinbastad: post whatever you want, leak the alpha all over the web, I really don't care
ATLjoker541: ok
programinbastad: we have the support of the community
ATLjoker541: lol
ATLjoker541: o you wont
ATLjoker541: you saw what happened to reborn when the betas got leaked
programinbastad: I do not feel threatened by you
ATLjoker541: dont you even know what happened to reborn
ATLjoker541: They got flamed so fucking bad
programinbastad: reborn had a shabby team, and they fell apart when you leaked their alpha
ATLjoker541: it was unbelieveable
programinbastad: I'm not really worried
ATLjoker541: I DID NOT LEAK THIER ALPHA!
programinbastad: yes you d id
ATLjoker541: Dark did
ATLjoker541: one of the testers
ATLjoker541: thats bullshit
ATLjoker541: i did not
...
programinbastad: I asked in irc about you, everyone confirmed that you were a piece of shit, and ack volunteered the information that it was you who leaked the reborn alpha
ATLjoker541: lol
ATLjoker541: well i dont care what people think
ATLjoker541: because it wasnt me
programinbastad: regardless of whether you did or didn't - it doesn't really matter to me - I am blocking you now
ATLjoker541: and wouldnt ACK be happy about that?
programinbastad: it doesn't matter whether he would be happy
programinbastad: because it leaves you still as the turncoat whore that I suspected you were
programinbastad: goodbye now
ATLjoker541: k

This was the last communication that we had before he attempted to publicly release the beta. As you have read, he promised to delete the beta from his computer, as a sign of good will. In the end, though, he released it to the public, simply because I made him angry with my insulting him about his lack of productivity.[/i]
