OMG...

You guys are discussing wheter to fix or not to fix a bug...
How long would it take to fix it? 5 min???

Our main goal is to get a "better" game, right?
I can't see why you guys are whining then....

PS: And please don't come with the shit like: 'It's a minor bug, so we shouldn't address it' or 'GDI has enough advantages already', cos I don't care. It's a bug and bugs need fixes.
