It is if you have photoshop or paintshop pro and the .dds plugin. You can extract the
pct_master.dds files from the always.dat and use them as templates-

agd_pct_master.dds

atr_pct_master.dds

bar_...

com_...

obl_...

pow_...

ref_...

wep_...

Edit them and put your own pictures there, then save them as .dds files.
