Hmm...I use the RenGuard authorization system to get my admin stats at All Out & I've never had a problem with it, though one time it added me to the admin list without announcing it...

As for the other thing, add this to your IRC remote scripts & sit in your server channel, launch Renegade & join the game, it'll help with that, I used it when RenGuard was off/before I used the auth system

```
on *:TEXT:*<nick> is a protected nick*:*:{ if ($chan === #channel) || ($nick === botname) {  
msg $nick auth nick pass  
/part $chan  
}  
}
```
