Subject: Should the maps we are making available be optional or not?

I think that this is a good thing.

I know SK doesn't like this but think about it. Did we have a choice about getting Glacier in the very last WW patch? I think not!

We just had to download it.

I know that there are stories for both sides that all have very good arguments. If it makes you download it maybe people wont get the patch and this will thin out the Ren people even more in RG servers or it will allow servers to have more maps and stay much more full.

Also BHS people you need to check out C&C\_Deth\_Islands map

This solves the problem of base camping with MRLS from behind the barracks. Most people in the Euro WOL have this and so I think it would be a popular map if included.

Tilly
