xC4pRoXWell, to make things short, something called LSASS.EXE keeps failing on my computer, which causes it to do the following:
SS= <http://img42.photobucket.com/albums/v129/x15incherx/wtf2.jpg>

You're infected with the sasser virus.

Download this patch after disabling system restore in XP

PATCH

<http://www.microsoft.com/downloads/details.aspx?FamilyId=3549EA9E-DA3F-43B9-A4F1-AF243B6168F3&displaylang=en>

then run this its called stinger a neat little app mcafee makes that will get rid of the infected files.
<http://vil.nai.com/vil/stinger/> <--stinger

Make sure windows system restore is OFF or you will keep getting it.
Then go to windows update and install ALL security updates
