Some of you may know that a long time ago AudiOwNsU used to be in the TwA Clan. Well it seems for some reason she's being a bit of a b*tch to anyone who pisses her off. Due to a mod kicking her off the server and allegedly kicking other audi members, she has threatened to hack the TwA Clan password for WOL. She also claims that she has the fastconn admin passwords

Proof that she is indeed "xfregelx", she also uses the WOL nick "TwAAudi" when she wants to piss TwA off..

[04:30] * TwA_AuDi (lalalalla@mls-366693B4.kabel.telenet.be) Quit

^^ logs from our IRC server a while back when she was in TwA.

Anyway, continuing..

Ok here she explains why she's in such a mood...

And now she implies that she's going to make Charmed's clan suffer just because of some moderator issues ?!?!?

Ok now i think this is the proof that she is capable of obtaining people's mod login passwords for renegade. I haven't confirmed yet with any fastc0nn mods if they're real, because the ones i found on the list were AFK :/

And now she's attempting to do it to TwA.

here she names those whose passwords she will try to obtain. I have reason to believe she has also attempted to hack WOL usernames in the past.
