Sigh....I'm not even gonna bother with you and I don't know why I did in the first place,so I'm done and out.....and ACK I hope you learn to have a better attitude towards things,instead of being a ass and saying it sucks maybe you can find the good aspects in things instead of the bad...like I could go naming tons of bugs from your maps and saying they suck...but do I know,and smiley in my opinion everyone is immature someway that includes me.Well I'm done bitching nice....um...talking to you all later.
