I also got the Renegade Soundtrack only mine has 15 songs on it. Strange thing is on the back it shows the same list with 14 songs ACK posted. Now normally the 15'th songs is an extra bonus track in this case. But I'm pretty sure song 15 is In Line of Fire. I'm not sure but one song has been added in the middle of the list.

I got the soundtrack at a very well known, CD-strore in the netherlands where you got the soundtrack extra. Note: it's one of the most expensive cd-stores, but hey I wanted my soundtrack.
