f00keroznice
but how will it affect servers that doesnt run renguard
and renguard users joining said servers

if it comes as part of a renguard update thos who do or will not use renguard
wont get the update so how will that affect the game

CP1 has nothing to do with RenGuard other than its primary method of distribution is via RenGuard. We will be posting CP1 on renguard.com and blackhand-studios.org for people who do not have or want to run RG to get it.

None of the fixes will prevent a patched person from playing with an unpatched person or server, and vice-versa.
