htmlgodThis is the latest weapon completed for Renegade: A New Hope. It is the Blastech D-44 Pistol, the same weapon used by Han Solo in the Starwars trilogy. It will be the basic pistol for all characters, meaning that everyone has one, regardless of what their specialty is. We may make another pistol for the Imperial infantry, so that the Rebels and Imperials have different pistols, but for now this is it for everyone. The model was by Havoc89, making it his one model contribution to our mod, and the texture was by Prometheus.

:rolleyes: Seems as tho you missed it. :rolleyes:
