It would appear 99% of players can't be bothered to use it, and here are the reasons I've found

It's flawed: so is everything

The server empties: I have it, why can't others?

No cheaters here: prove it

All in all, it seems that no-one can be bothered to protect themselves, and actually like to be/play with cheaters. So stuff this, I'll come back when some fair games crop up.
