Drkpwn3rOh how I love when people think that trying to insult me is going to bother me in the least.

For 1, I'm not going to change my signature or name.

2, What I meant by 'treat others as you wish to be treated' is be nice to them & they'll be nice to you, not even slightly based on their signature or name.

3, Don't attempt to insult someone who's not going to be bothered by them to start, you'll just waste your time.

4, I have yet to get banned from ANY forums where I've registered (20+), shows how much you've proven to me in saying "an obnoxiously annoying signature and name that would get you banned from many forums on sight?"

First of all, it wasn't an insult. If you aren't bothered, why reply? I knew what you meant by the analogy, that wasn't the point.

Let me refer you to a forum that cares a bit more whether or not people act like douchebags. But before I do that, let's take a look at a rule ON THIS VERY FORUM.

Quote:Signature Image Size - Please keep them small as signature images should be. In other words it shouldnt be bigger than a few lines of text, or so wide that it stretches the forum page beyond its normal bounds. Just keep in mind that by definition a "signature" is a small signoff message. Anything larger than 3-4 lines of text stops becoming a sig and turns into "that big picture at the end of the post". Please also make sure that your signature image, if animated, is not over approximately 250K. This is to ensure that the modem users (yes, everyone doesn't have broadband) don't have any problems.

See that little image you got of that stick man trying to kick some door in? see, in a way similar to the stick man, you're SMASHING through that rule at a world record.. some odd 300kb in fact. So not only are you inconsiderate, you're annoying a lot of 56kers (who were probably more annoyed at "pwnage runs in my blood" than anything else).

Now, take a look at the somethingawful.com forum rules. Keep in mind, there are other forums out there with similar rules. <http://www.somethingawful.com/forumrules/>

Quote:Signatures cannot exceed 30k in weight (total) and must not include more than 2 images or 3 lines of text (in 1024x768 resolution). Images may not exceed 400 pixels wide or 125 pixels high. Failure to comply will result in your signature being edited down to the preferred size. Restoring the signature to the pre-edited state will result in a ban. Please refrain from posting your sig file in every thread, every reply, and every post.

Quote:Gimmick posters, unless intensely humorous, will be banned and shot in the face. Same goes for people posting parody threads or SA character impersonations. Any furies or Scientologists will be banned on sight. Anybody who writes in AOL / script kiddie speak (ie "pw3ned", "0wned," "r0x0r") will be banned and we will hunt you down and drive railroad spikes

into your hands.

See now, this is just funny. You'd be going through the ban door like a hyperactive kitten with a rocket strapped to it's back.
