spreegemHappy 4th of July! Unfortunatrly where I live (Connecticut) we don't have any firecrackers, or stuff that flies into the air and explodes . Only Sparklers, and fountains.

Same in here in Illinois, but I live close to Missouri, so I always go and buy fireworks there. I was with my parents once, and we saw this store selling illegal fireworks. My father asked him if the cops minded him running it, or ever tried to shut him down, and he replied; "No they don't mind. Some even come here and buy fireworks." Lol.
