NO, moron. Every once in a while WOL happens to go down. It has nothing to do with DDoS attacks that we're aware of.

Just use somethin alternative like:

GSA (GameSpy Arcade)

ASE (The All Seeing Aye)

I don't like playing on GSA, it lags me out 90% of the time, zunnie's right, WOL mode is unbeatable, the main reason I love it is I know that I won't warp everywhere or get 0-10 FPS :rolleyes:

Yup WOL is best, I can't stand Gamespy mode so much I don't bother to play anymore.

Hope WOL comes back.
