I found this program online and it is really cool. It lets you make your own music by piecing together pre-made sound sequences.

http://www.2flashgames.com/f/f-548.htm

I recommend trying it out. If you make a good song, post the string here so we can load it on our computers and listen to it also, then rate it.

To post the string, click on Save then highlight and copy all the dashes and numbers from the textbox at the bottom. Then paste that string here.

To load a string, click on load and paste the string from your clipboard to the textbox at the bottom of the load string. Then click OK.

Here's a string I made up over 15 minutes or so. Rate it and post your own strings.

```
2---2---2---1---1---2---2---2-6-0---2---6-000---6-5-9-----------------------------------0---0--0--0--0--0--0---
2-2-7-7-7-8---1-0---0---c--------------------------------a------------------1---1---1---2-1---1---1---1---3-a------
------------------------
```

Good Lord man, that thing is OLD.

I already downloaded it to my desktop like a two months ago.

Anyway, here's my song. I stole the ending off a demo since I couldn't think of one myself.

```
--------0---0---2-2-2-2-1-1-1---3---6-7777-8686-3--83--81---1---2---2--84-9-------------8---8---8---0---0-

4-4-874-57535753-103-1034-2-4-2a--a9---------
```

Here's the continuation of the song above.

```
84-9------3---3---3---1---1---2---0-------0----------------------------------------4-4c-60---0---0---0---9---0---
9---9---8---8---------------------------------------a--a9--------0---a---4-a-1-4-7-7-8-6--a----2----------------
----------------------
```

Also here's a song currently in progress.

```
----------0---0---2---0---3---3-----------------------------------------------------b-b-b-c-2---2---0---0---8---8---
----------------------------------------------6-6-8-8-a-6-6-8---7-7-8-6-1---1-2-----------------------------------

C'mon people, surely you could do better. Try not to make it so repetitive, mix it up a bit like in my songs.

I listened to all the posted ones and honestly I think they're all sound too random and jumbled except Umbral's, DarkDemin's and Bigjoe's, but yours is too short.

Alright, here's something REALLY long (or as I call it when I compose, "dynamic") that I cooked up at 3 AM quite some time ago. I'm surprised it's still saved.

```
880---0--80---88880-2--0---9--89---89--8----0--0--0---5-0---0---1---5---------------b-b-b---0---3-3-8-b-
-c---2---1----c---5-5-0---4---3-5-2-1---4---2---5---------------a---a-8-67-76-7-6-a--8-8-3-363-3--a---67-
76-9-4-4-a---111-------7-6-4--------------
```

It's still cooler actually doing it in real life
