Please make sure you have the following maps in your renegade\data dir, we have added them to the FanMaps server map rotation:

<http://zunnie.hellrazer.net/maplist/bio.rar>  
<http://zunnie.hellrazer.net/maplist/snow.rar>

Also note: RenGuard is required here. You may NOT have ANY skins. The server is set to run in Pure mode!

I find it ironic that you say no skins on your server when you clearly have skins on.

I'm hoping we will get a map auto download feature in Renguard soon. That should bring some more life back to fan map servers.

I hope you realize nobody will play if you have the server set to pure mode. Anyone who is smart enough to download rengaard has probably downloaded skins too.

Ive been 'promoting' all these maps that are on my site for over a half year now :S  
At the moment i dont have any skins i took these screenies a long time ago - before RenGuard was released.

Its not that i dont like skins, its i dont like advantage skins such as neon-blue snipers and the (in my view a cheat) Clear Scope skin.

But if i have to choose between:

1) People having advantage skins like the sniper-clear-scope-cheat-skin, neonblue sniperskins, neonblue stealth skins so that you see them earlier, and skins like this.

2) Put RenGuard on in Pure mode disallowing any skins and being sure that absolutely nobody has an unfair advantage over the others because they are maybe using the skins i mentioned above.

Then i choose for option 2. I know most of you guys wont use such skins but alot of others will and that is why i put the server in Pure Mode. So that everyone who is joining KNOWS for sure that everyone is using the same game-style as they are and that it is practically impossible to have somesort of (small/slight) advantage over them while playing.

I wonder why the FanMaps server is full every day, all day then

I find it easier to use the regular snipe skin, if I used any other skin for the sniper scope I'd make it darker to make it more of a challenge, Clear Scope, aka crystal snipe, is considered a cheat by many, mostly cuz the people who use it don't wanna LEARN how to play, they'll just use any tactic they can to be the best, even if that means cheating.  
I only find it easier to use the default cuz I'm used to it, it's all I've ever used since I got the game

more than a year ago, even so, I took the time to LEARN how to play, unlike some people  
:twisted:
