I'm having a problem with making a drop down menu in it. I have everythign set up properly, and it works just fine, except it will not display all of the menu. It only displays up to the first menu that has submenu items in it. Here is the code of the .xml file, and here is a screenshot of what I mean.

```
<?xml version="1.0"?>
<NAV main_onColor="#FFCC00" main_offColor="#000000" sub_onColor="#FF9900"
sub_offColor="#000000" navWidth="150" fadeTime="0" lineWidth="150" main_y_padding="1"
sub_y_padding="0" sub_indent="6">

<MAIN text="RenAlert" expand="false">

<MAIN text="StarCraft" expand="false">

<MAIN text="Tribunal" expand="false">

<MAIN text="World of WarCraft" expand="false">

</NAV>

Ohh yes, is there a way to make there be some sort of an image between each item on the menu, like where the lines are?
