We have put them on USA now for some time, possibly forever.
On europe the servers are just always empty it sucks.

The last couple of weeks alot of new servers of 40+ players have appeared on Euro and there are just too little players to have all servers full all day.

The FanMaps0 server is now a 50 player FanMaps:

The map rotation includes:

The map rotation includes:

C&C_AI_can.mix C&C_FieldsRev.mix
C&C_Garth3.mix C&C_FieldTS.mix
C&C_siege.mix C&C_Snow.mix
C&C_Bio.mix C&C_Alpine.mix
C&C_Forgotten_Town.mix C&C_Ravine.mix
C&C_Metropolis.mix C&C_City_Flying_SE.mix
C&C_CliffsLX.mix C&C_BunkersTS.mix

You can download all of them @ <http://RenStation.net>
I will put links and screenshots on my own site too soon.
<http://zunnie.hellrazer.net>

If you want more maps to be added then just give me a mail, msn-msg or IRC-msg
I will only add good balanced maps btw, not these one-time fun only maps.

The FanMaps1 server is still a 50 player server:

The map rotation includes:

C&C_Field.mix C&C_Complex.mix C&C_Islands.mix
C&C_Walls_Flying.mix
C&C_Bio.mix C&C_Canyon.mix C&C_Hourglass.mix
C&C_Volcano.mix
C&C_Mesa.mix C&C_City_Flying.mix

Just so you guys know it

ahh well.. it was fun with RG pure.. now you never use RG.. and now its been increased to a n00b amount of 50

it WAS a good server :/
