About a week ago I tried to add a couple of logins under my current E-mail adress, (one through the main site, the other through Xwizs, can't remember the exact name but you know what I mean) and I have yet to recive the activation e-mail for either of them rendering the names useless, does anyone know of a way to get them activated without that E-Mail?

You don't need the email.... they should work fine without.

They don't appear in my persona list under "My Information", or am I missing something?

How? Renegade is only allowing me to select form a list, not add anything.

Actually, you type straight over existing entries in the login screen. They appear in the list once you logged in successfully.

Sorry if I'm being annoying here but I still don't get it. From what you've said it sounds like I have to get into "My Information" highlight the "My Persona" box and just type in my new login to get it on the list. I f this is the case then it isn't working because Renegasde win't let me type anything into that box.

Edit: And now it dawns on me how much of a dumb fucker I've been, sorry about all this, thanks for the help anyway.

Ok, here is what you do.

Make sure you have a valid Westwood Online username / password. If not, run register.exe in your Westwood\Internet folder.

- (1) Start the game.
- (2) Select Multiplayer Internet.
- (3) Select Westwood Online.
- (4) Pull out the menu on the left and select My Information.
- (5) Clear the checkbox in front of "Automatically login with this account" (i.e. make sure there is no x in it).
- (6) Click OK.
- (7) Click Back, and click Back again. You are now in the main menu of Renegade again.
- (8.) Select Multiplayer Internet.
- (9) Select Westwood Online.
- (10) Select Advanced Game Listings.
- (11) A login screen appears. Type in the new WOL username and password you want to use. You write over the last username / password you used, but they do not get erased. No worries.
- (12) Click Connect/OK (I am not sure what it says on the button, but it's obvious).

That's it. You are now logged in with your new username.
