What does DSAPO stand for?

Does it stand for, "Decorative Static (*Something*) (*Something*) Object"

I always thought it stood for Dynamic [or] Static Animated Physics Object

P.S. I meant to say Damageable, not Dynamic.

it can't be Static Animated anyway because an object is either static (no animation) or animated (animated).

So no way of that name anyway!

if I rember right LE has a physic type called:

StaticAnimatedPhys

I'll check when i'm back home

PCWizzardol always thought it stood for Damageable [or] Static Animated Physics Object

It could be, "Damageable Static or Animated Physics Object. All the same anyway."
