go to Global settings -> vehecles and select the file then click on mod in the bottom button. and
remove the string of the unit you wanna remove , it worked for me. but i think you need to
replace it by something

Global Settings -> Purchase Settings -> Vehicles (Nod) select it click mod goto the settings
tabgoto entry 4 Flame tank click on the cost set to 0 set the object to <none> and delete the
texture text=- im not sure about the name bit u could create a blank string first but i would just
leave it as is for now.

object to <none> and delete the texture text=- im not sure about the name bit u could create a
blank string first but i would just leave it as is for now.When you say goto Entry 4Do you them
mean scroll down under the settings tab?cause when i scrooll down the graphics screw up, and
im unable to c anything lol..
