the other night i was playing on one of my clans sniper servers, [EoE] and some n00bie came in, i shot at him, and got a double headshot him and the guy runnin strait behind him. He then starts on me saying "I was'nt born yesterday" "cheat" blah blah blah, so i kicked him with an "Come back with a different attitude n00b" I think it was.

You know somethin dansolo? YOU'RE A n00b ON 3 FRONTS. First you think sniping is unrealistic. :rolleyes: I bet you only think that cause u DIE every time u play. cowmisfit could prolly kill u any way any how. Second, your a noob. This idiot think that because he can beat one player mode on easy means he can own us all in all out war. As long as your still in diapers in renegade, maybe you could get a game in with cowmisfit and whoever else you want. Last, have u ever even sniped? You probly have never gotten a head shot with ANY gun on anyone. I might just spread the word around the renegade servers that this noob@\$\$ is on renegade and to kick him from your server, casue all noobs do is screw things up.

He's right. Sniping in Renegade IS unrealistic. There is no way that any human being could aim and fire with the kind of accuracy displayed in Renegade. Thats not even including the ability to jump with a scope in your face, or the fact that there is no shake on the scope associated with holding any kind of gun.

Dude, the game is called Command and Conquer, not lets be a faggot with a sniper, wall camp, jump around in the tunnel shooting people. The sniping is shit in renegade, pure and simple, the whole point of the game is to kill the enemys base, not spend 40 minutes sniping engineers with a n00bjet and thinking your the ownage.

Il play both of you if ya want, 1 sniping game, 1 aow. im no sniper, but i will give it a shot, besides if you beat me, big deal, like i give a shit.

So instead of calling me a n00b, stop being a faggot and challenge me. i have only commented

upon things that i have observed, thus me not saying anything about how you play, however from reading the way you go about your business and start saying how you gonna tell all your friend how much of a n00b i am, even though you have never played me, proves that your a fag. Id love to play EOE in a clanwar and show them how n00by DFC are, that would be fun. The question is ,will they rise to the challenge?

AirCraftKiller when are you going to grow the fuck up. When your not playing out your resident forum nazi job, what do you do in your spare time? Oh yeah i remember you whine incessantly about other people's good work.

"Dis" is a regional slang variation of "This" in England.

Stop fucking whinging about everyone else and say something constructive.

Awww come on, don't be so hard on ACK. He's barely literate, and he needs everyone to type things out PERFECTLY in order to understand them. His little "correction" was probably just a way to vent his frustration from wasting half an hour of his pitifully boring life trying to figure out what you were saying.

I propose we all give ACK a big CONGRATULATIONS for finally figuring out how to discern an unknown word from context clues. Most of us probably learned that stuff back when we were only 6 or 7, but we shouldn't forget that some people have difficulty with seemingly simple tasks.

Well, You'd kind of expect a teenager would know how to spell such a simple word. Right?

Trying to pass of misspelled words as "slang" is the worst excuse I've heard yet. "skin" might be considered slang by some for "texture", but at least it's spelled correctly.
