I have been trying to make mine for awhile now, i just got my TC to load all of the menu functions and such.

just to let you guys know, i will make a tutorial for renhelp, with a file list so you can make tc's.

good news, i got the game to load maps!

still needs work though.
i also get that Tbberr thing though. Easily fixed, i was using two mod packages to make it work.

First Person

Third
