flyingfoxWhy have everything on the desktop? Create folders in My Documents to store this stuff.

1) I'm lazy
2) That's not close to everything.

Subject: June Desktops..
Posted by IRON FART on Mon, 07 Jun 2004 01:14:26 GMT
View Forum Message <> Reply to Message

xptek,

Press this:

Ctrl + A
Shift + Del

Even lazy people can do that

Subject: June Desktops..

regarding xptek's desktop, did anyone happen to notice the folder 'udpflood'? also, considering that all of his icons are in alphabetical order, look at the two that are blurred out and the two zips that are missing. does anyone else find it funny that 'DA' and 'DS' fit perfectly in that order for both of them, or is it just me?

Subject: June Desktops..
Posted by xptek_disabled on Mon, 07 Jun 2004 02:59:39 GMT
View Forum Message <> Reply to Message

I know, the UDPflood is to test on my server. I've been attempting to stop these damn hacking attempts to no avail. And yes, DS and DA were there and I deleted them awhile back. While pasting the picture in photoshop I noticed I had them extracted so I blurred them and deleted them. And if you have to ask about the packet sniffer, it was installed to get the IP address of a script kiddie. I hope you're not even planning on incriminating me based on my icons.

Soviet Pride.

Xptek, I ask you to please remove the SWMOD alpha 914 you hold, it was not
intended to be released to ANYONE outside of the crew and the testers.
Please remove it before the whole community jumps on your case.

I never bothered to reinstall it after I reformatted a week or two ago...

I'm runnin a 17" LCD as my primary, and a CRT at 1024 x 768 as my secondary monitor to the right, I love the dual background option, along with the task bar at the bottom of the secondary monitor. I usually use the second monitor for music and IRC, with my primary for surfin the web and for MSN.

You took the words out of my mouth

I love the second taskbar, I have it set up to mirror applications. The best features I would say are the extra buttons on the Title bar.

oh btw I run a 17" Samsung CRT as main and a 15" IBM CRT as secondary.
